

## 1. Peace Instead – Karie Hillery

If I stand for anything, I will stand for peace  
Freedom for all people love within our reach  
I believe in Liberty and brotherhood of man  
When lies are passed as honesty  
That's when I'll take a stand and I will take a stand

'Cause I, I know there's a better way  
And I, I can see a brighter day ahead  
Embracing peace instead

I won't kill my neighbor in the name of anything  
I'll be an example of what peace on earth can mean  
Ignorance or innocence can't be an excuse  
Be the darkness or the difference  
It's time for us to choose, we have too much to lose  
Chorus  
Are you searching for answers or hiding from the truth?  
Are you proud of the legacy we're leaving our youth?  
Is this the best that we can do?  
Nothing's solved with anger violence or greed  
Open minds and tolerance are what our country needs  
That's what the whole world needs  
Chorus

## 2. Like An Angel – Karie Hillery

I want to be like an angel with my presence bring peace  
Instead of hatred and anger love's power I'd teach  
There's be no lost soul my heart couldn't reach  
I wanna give I wanna live like an angel  
I want to be like an angel want to dissipate fear  
Find all the lost spirits and gather them near  
Heed that still small voice 'til the path becomes clear  
I wanna give I wanna live Like an angel  
I'll learn to live like an angel turn my face to the sun  
When I leave this existence look at what I have done  
I will leave this world a more compassionate one  
'Cause I'll give I will Live Like an angel  
I'm gonna live like an angel gonna celebrate love  
Illuminate darkness with a light from above  
My heart will embrace the peace of a dove  
I will give I will live like an angel

## 3. Let's Live As One – Karie Hillery

When we look up we see the same sky  
Shared by us all no one questions why  
Morn' brings the sun lighting the way  
The moon and the stars closing each day  
The air and the water know no boundaries  
If we leave them alone, they flow where they please

They see no color, no religion no creed  
They flow where they're guided filling life's needs  
Let's learn from the river the moon and the sun

We're in this together let's live as one (repeat)

Each country each child needs loving care  
And as they grow becoming aware  
They look to us to teach them each day  
Let's show them that love and peace are the way  
For love knows no limit, has no boundaries  
With peace in our hearts, we are all free

A child sees no color no religion no creed  
They're searching for answers filling their needs  
They'll learn from their parents these daughters and sons

We're in this together let's live as one (repeat)

For love knows no limits, has no boundaries  
With peace in our hearts we all are free

There is no color no religion no creed  
Love goes where it's given fulfilling all needs  
It flows like the river, shines like the sun

We're in this together let's live as one (repeat)

## 4. One Drop Of Water - Steve Seskin and Tom Damphier additional lyrics Karie Hillery

Another twelve hour day working as a seamstress in Montgomery  
She climbed aboard a bus  
There was nobody sitting there when she took that seat said I'm not getting' up  
An ordinary act of courage that sparked a revolution  
She wasn't trying to be a problem just part of the solution she was

One drop of water in an ocean of hope  
One voice of reason that finally spoke  
If we're ever gonna get along if peace is our desire  
We're never gonna get there fightin' fire with fire  
(She) (He) was (I wanna be) (We all could be)  
One drop of water, one drop of water  
(Let us be one drop of water, please let me be one drop of water)

Called himself a common man, not a hero not a saint  
He knew that war just leads to war  
He fought for freedom in nonviolent ways A cause worth dying for  
He believed that we can change the world with quiet dignity  
Hundreds grew to thousands as he marched down to the sea He was  
Chorus  
continued....

I am just a simple child of the universe  
I know that freedom is not free  
I love my country I respect our mother earth, but with my heart I see  
There are times when we must stand alone, even in our fear  
Times to stand for our beliefs when what is right is clear I wanna be  
Chorus  
We can wage a war with words or weapons  
Pray for peace or make it happen we all can be  
Chorus

## 5. Start The Healing – Karie Hillery

Stop the violence start the healing, try a little love  
Where's the love my heart's concealing  
What about that love? I will be that love

But what can I do I am just one person  
I feel my world spinnin' out of control  
I want to be a peaceful example  
Starting today this is my goal

Start the healing stop the violence, try a little love  
I will not stand by in silence  
I can change the world I can be that love

When I look around, sometimes it seems hopeless  
Hearts filled with pain, anger and fear  
I will give love and feel compassion  
I know that this is why I am here

Stop the violence start the healing, try a little love  
Share the love my heart's concealing  
I will share that love I will be that love

I'll open up though I may feel helpless  
I will reach out and I'll touch a heart  
Trusting that I'll be the change I'm seeking  
Each caring word brings a new start

Start the healing stop the violence, try a little love  
I will not stand by in silence  
I can change the world I will be that Love

## 6. This Kind Of Rain – Karie Hillery and Dave Conley

Well the sun slips down behind  
Clouds of brown just when  
It was lighting my day  
All my treasures are lost in this storm  
Downpour has washed them away

I don't know if I can take it no more  
No I've never seen this kind of rain before

All my dreams that once  
Weathered these storms now this  
Cyclone has blown them away  
Try to hold on but they are gone  
Nothing left but to pray

Chorus  
I stare at the sky, I open my hands  
Now let's see, how much more I can stand  
When it's clear all that  
I hold dear can come  
Back into my life someday  
I must be part of the change that I seek or this  
Whirlwind will blow me away  
Chorus

## 7. Wouldn't You Love – B. Lawrence Keys additional lyrics Karie Hillery

Wouldn't I love to just go back and change some points of view  
Wouldn't I love just to have the words to help the people all pull through

Wouldn't you love to just go back and ring some warning bell  
Now it is clear that it's in this life we create our heaven or hell

Love irresistible, love irresistible, love irresistible

Wouldn't you love to bring the soldiers home and give them all a grand parade?  
Wouldn't you love to heal the whole wide world that's when we'll know we got it made  
Chorus

Wouldn't the world be a better place if we all would just choose peace?  
Why is it so hard to recognize that this dream's within our reach?  
Chorus

## 8. She's The Earth – Karie Hillery

She's the earth, she's our mother she loves us and we love her  
For providing us with everything we need  
She holds tremendous power, when she shakes we run we escape  
And there are times when she has brought us to our knees

Through it all She will embrace us  
Shine the warm sun on our faces  
Teaching us to be the best that we can be  
Oh mother our mother teach us how to receive  
(Protect us teach us how to believe)

We know we cannot replace her, sometimes it's hard to face her  
Recognizing our destructive deeds.  
Our own worth will be reflected, when we show her she's respected  
As we learn to tread more lightly and believe  
Chorus  
We were born to love each other, father mother sister brother  
Look into your heart and you will see  
Mother earth lives deep inside you, be still, let her guide you  
Listen and we'll find that inner peace  
Chorus

## 9. In Our World - Karie Hillery and Dave Conley

In our world things just ain't right  
Longing for the light of a brighter day.  
Make a world where we all belong  
Love's the only way  
We all hear about it, trouble all around oh there's armies on the move,  
Innocents are dyin' homeless families have no food  
Oh it's time to face the truth  
Chorus

It's all about power blinded by greed oh it's time to change these ways,  
We all know the answer, raise your voice and say  
Love could turn it all around today  
Chorus

Think how good this world could be  
If we could learn to embrace diversity  
Love for all humanity  
How hard, how hard could it be?  
Chorus  
Longing for something, searching for truth turn away from all those lies  
Where people have sown love, that's exactly what grew  
Together we can turn the tide  
Chorus

## 10. Shine On - Karie Hillery

The brighter the light, the deeper the darkness  
So let us shine for all that we're worth  
And as we shine, embracing the darkness  
Lighting the way toward heaven on earth

Shine on reflect embrace see (the) light in every face  
Shine on believe be true to the light in (that's) you

And as we shine, see shadows converging  
So without fear, let's look inside  
Our hearts can see the goodness emerging  
Illuminate, so darkness can't hide  
Chorus  
Let's cast our light as shadows surround us  
Radiant, bright we light the sky  
And just like the sun we'll glow through the darkness  
No matter how dark we'll be the light  
Chorus

## 11. We Will Honor Them – Karie Hillery and B. Lawrence Keys

We will honor them, our family our friends  
Mother, father, sister, brother  
We will honor them we will remember them

The days are long and tough, some feeling so alone  
And times that they're allowed to sleep, are filled with dreams of home

We will honor them, our family our friends  
Father, mother, sister, brother  
We will honor them we will remember them

For family and friends there's no way to pretend  
There's fear that lies between the lines in messages they send

We will honor them, our family our friends  
Mothers, fathers, sons and daughters  
We will honor them we will remember them

In tasks they're told to do they are brave and true,  
Putting their lives on the line some die for me and you

We will honor them, our family our friends  
Mother, father, sister, brother  
We will honor them we will remember them

We'll keep them in our prayers and hold them in our hearts  
Welcome home with open arms give them a brand new start

The duty of sacrifice, unselfish resolve  
Love conquers all, Love conquers all, Love conquers all

So we will honor them, our family our friends  
Mothers, fathers, sisters, brothers  
We will honor them we will remember them

## 12. One Heart at A Time - Jimmy James Page

Mother Teresa, Dr Martin Luther King, Lincoln and Ghandi, may their voices ring  
All the millions they blessed, all the souls they set free  
It's a humbling thought for a person like me  
'Cause these arms of mine could never carry that much  
But with these two hands I can reach out and touch

One heart at a time, one little step up the (this) mountain we climb  
There's no end to what we can start  
One heart at a time, One heart at a time

If I was a queen, I'd eradicate war, if I was a doctor, I'd discover a cure  
If I was a judge I'd rule justice for all,  
so that every man and woman could stand proud and tall  
My talents are too few to help so many so much  
But I can still make a difference if I reach out and touch  
Chorus

If I should find my faith fading away  
and I need some light to guide me through the haze  
Then by standing on the shoulders of giants I can see  
A world of peace, compassion and unity, it's up to you and me we'll get there  
Chorus

Tell me am I wrong for dreaming? Tell me is my aim too high?  
I may not have all the answers but I know I've got to try  
One heart at a time, One heart at a time
